15 July 2026

Dear Resident,

Update - Communal Repairs at 25 Robsart Street

We are writing to you with the latest update on communal repairs work affecting your building.

Main Water Valve Replacement

Works on the valve replacement in the riser cupboard on the 1st floor have been rescheduled for Monday 20 July 2026, to take place between 10.00am and 4.00pm. This is subject to cooler weather conditions and unfortunately, we may need to reschedule again, if temperatures remain at the levels we are currently experiencing.

However, if the works go ahead as planned, water will need to be switched off and is likely to be switched off for most of the day. Please accept our apologies for this temporary disruption.

We will be delivering 2 x 5ltr of bottled water to you on Sunday 19 July; if you require more, additional supplies can be collected from the concierge.

We will update you if the above plans change.

Thank you for your continued patience.

Yours faithfully,

Aemiro Kassa

Property Services Officer
